Customize

your napkins

Profile-printed napkins are a simple way to add something extra to your table. A logo, slogan, or short text printed in two colours gives the napkins a personal touch and makes them part of your brand.

They are suitable for everyday use as well as for special occasions – in restaurants, cafés, hotels, at events, or private gatherings. Custom napkins show attention to detail and help create a consistent look.

At the same time, they subtly communicate your brand to every guest. A well-placed logo or message can strengthen recognition and leave a lasting impression, even through a small detail like a napkin. With their clean look and practical function, profile-printed napkins combine branding and usability in a natural and elegant way.

Express your brand! ✨

Simple as 1-2-3-4!

- 1** Send us your logo or the text you would like to have printed on the napkins. It can be provided in PDF, or any other vector format.
- 2** In short time, we prepare a quotation and a preview of the logo or text print on the napkins.
- 3** After confirmation/prepayment the production of the ordered napkins can be started.
- 4** The product can be manufactured and dispatched in approximately 3 to 4 weeks.

With two-colour printing available even at lower order quantities, profile print napkins are an easy and effective solution for anyone who wants their table setting to stand out.

Make your brand stand out!
